Low Voltage Program

Tucker Egbert, Tyler Lockwood, Yancey Sayers, Loren Swanson, Charles Watson

Residential Program

Samuel Hudson-Crim, Nathaniel Rich

Congratulations to all graduates of the Class of 2018!!

Graduation

The graduation banquet will take place June 2nd, 2018 at the Hotel Murano in Tacoma at 6pm. Each Graduate will receive two dinner tickets. Additional tickets will be available for purchase. This event is open to IBEW Local #76 members and signatory contractors. Dinner details will be set in early May, and distributed to all graduates. Please contact the JATC for more info.

New lashing lab

Make-up class

Make-up class is scheduled for May 5th at 8am. If you owe missed class hours plan on being there. Wear work clothes!

EEO

The JATC is looking to increase the number of females and minorities in our program. Please encourage people you may know from these groups to apply if you feel they will be an asset to the apprenticeship.

Steve Harper Training Director

Southwest Washington

Electrical JATC

The JATC is offering two new classes this spring, BIM, and Building Automation wiring and Protocols. See below for course descriptions. I expect these class to fill up quickly, so sign up early to reserve your spot. Both these classes will also be offered this fall.

I am hopeful we will be able to add at least one new class per quarter for the next few cycles.

New CEU Classes

New classes

Introduction to Building Information Modeling is a four hour class showing how computer software is being used in place of traditional prints in construction. Students will be introduced to what the model is, different software programs used in modeling, and how this will impact electrical construction work.

Introduction to Building Automation Wiring and Protocols is a four hour class reviewing the techniques necessary for a trouble free installation of low voltage systems. Wiring methods, grounding & bonding, and automation protocols will be covered.
