TRAINING DIRECTOR'S NEWS

ATTITUDE:

We can teach you how to bend conduit, hook up a 3-way, wire a motor starter, terminate cat 5, and all the things that you may do on the job, but we are unable teach attitude. Attitude is more important than education, money, failures, or success. It will make or break a home, and company. Attitude affects everyone around it, whether good or bad. Good attitude is contagious and can change the whole atmosphere on a job site; increase productivity, make work more enjoyable, and make you feel good about yourself. Bad attitude is also contagious; It can make coming to work a burden, reduce productivity, alienate the crew, and destroy the job. This is something we cannot afford to do. Our future relies on us (you) being productive and safe on the job site. Give your employer an honest days work. We have to be more productive then our counterpart in order to maintain and increase your wages. Your employer has to make a profit in order to keep bidding and winning other projects. Even if its 2% or 20%, it doesn't and shouldn't make a difference. The more the employer makes the more work for you. Keep your attitude positive , affect others around you with that positive attitude and we all win.

REGISTRATION

August 31

After 5:00 pm
